Project Team Qualifications

Katie Tyler President

Katie Tyler founded the company in 1983 and has over 30 years of commercial construction experience. After obtaining her Bachelor of Arts degree from Rutgers University, Katie worked in a variety of companies, including an architectural firm—where she was involved in retail design and construction.

In 1983, Katie founded Inside Moves, which later evolved into Tyler 2 Construction. Katie's leadership skills and ability to motivate associates have resulted in numerous local, regional and national awards. Her encouragement and support of associates community involvement recently resulted in Tyler 2 Construction be presented with a *9 Who Care Award*, in recognition of our community service.

One of Katie's passions is helping to raise and train guide dog puppies who will service the blind at the end of their training. It was this passion that inspired Tyler 2's new corporate logo, which debuted in 2003. Through Southeastern Guide Dogs, Inc. Katie spends 12-16 intensive months providing socialization and basic training lessons to each new dog under their care. Upon returning to Southeastern, the dog then enters a rigorous training program. Katie is currently training her sixth guide dog puppy.

Relevant Experience

Successfully negotiated master contract agreement with Bank of America In 1998. Master contract has been renewed consistently since origination. Tyler 2 has provided construction services to Bank of America on nearly 300 projects. Tyler 2 was honored to receive Bank of America's most prestigious award for contractors, the Higher Standards Award.

Established on-going preferred vendor status with Wachovia, Carolinas Healthcare Systems, Novant Health and major commercial real estate management and development companies.

Under Katie's leadership, Tyler 2 Construction has grown to a \$30 million company with unparalleled financial strength and stability.
